ARTS + DIVERSITY, ACCESS, EQUITY, & INCLUSION

IMPACT POINTS

75% REDUCTION IN INCOME DISPARITY
From 2000–2010, more than 75 percent of diverse, low-income, and highly disadvantaged neighborhoods saw reductions in income disparity that directly correlated to the formation of new arts organizations within that community.¹

ARTS ENCOURAGE EMPATHY AND DECREASE DISTRUST
Research has shown that exposure to stories of other cultural experiences, such as through literary fiction, significantly increases empathy and the ability to see another person’s point of view.²

CULTURE IMPROVES IMMIGRANTS’ PSYCHOLOGICAL WELL-BEING
Immigrants who participate in culturally meaningful activities, including their indigenous arts, show improved psychological well-being, enhanced positive emotions and feelings, and deeper social connections with others.³

63% INCREASE IN IMPROVING THEIR COMMUNITY
Following engagement in the arts, 63 percent of participants indicated that they had become more aware of, and more interested in remedying, local challenges.⁴

ARTS INCREASE TOLERANCE
The opinions of frequent television-viewers of women and other oppressed groups become more tolerant as the number of characters from such groups increase in each television season.⁵

CULTURAL IMMERSION IMPROVES ACADEMIC SUCCESS
Three decades of research confirm that well-implemented immersion in heritage language and culture improves language acquisition, enhances test performance, increases school retention and graduation rates, college entry, and increases parent involvement and cultural pride.⁶

ARTS IMPROVE UNDERSTANDING AS IT EMPOWERS
Artistically preserving heritage can help reconcile difficult history, encourage self-expression, and aid family healing in service to community empowerment and change.⁷

OVERVIEW
The diversity of America is one of its greatest strengths, but social forces often disadvantage women, immigrants, people of color, LGBT people, disabled people, and other oppressed groups. The arts can impact public opinion on these groups and open the door to legislative change that increases equity and inclusion.

Research suggests exposure to arts and media featuring characters or cultures representing these oppressed groups can help reduce and eventually eliminate racist, sexist, heterosexist, ableist, and other negative views. When we read literary fiction, we are more able to understand others’ mental states—which is to say, we increase our ability to empathize.

Local arts organizations help to improve economic conditions without displacing residents. More than 75 percent of communities with new local arts organizations have seen reductions in their levels of income disparity. The arts improve intercultural understanding, promote civic dialogue, and create a common ground for celebrating diversity and pursuing equity.
